Comments:

1. Competency Restoration Ward - The state hospitals have experienced delays in admitting individuals requiring competency restoration services. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for 60 competency restoration beds at Western State Hospital and 30 competency restoration beds at Eastern State Hospital so that the facilities can meet the mandatory time limits established in the act. This increases the number of forensic beds at Western State Hospital from 270 to 330, and at Eastern State Hospital from 95 to 125.

2. Single Bed Certification - Funding is provided to reimburse Regional Support Networks (RSNs) for increased costs, as compared to utilization and costs in FY 2014, that are incurred in order to meet statutory obligations to provide individualized mental health treatment in appropriate settings to individuals who are detained or committed under the Involuntary Treatment Act (ITA). Prior to distributing funds to RSNs requesting reimbursement for costs relative to increased utilization, the Department must receive adequate documentation of such increased utilization and costs. Funding is also provided for staff to provide oversight to ensure that RSNs are meeting the statutory obligations. (General Fund-State, General Fund-Federal)

3. Nonfelony Diversion - Funding is provided under ESSB 5177 for outpatient mental health services for clients diverted from prosecution in non-felony cases where competency to stand trial is raised by the court or defendant. (General Fund-State, General Fund-Federal)

Medicaid clients must continue to receive medically necessary treatment services in accordance with the 1915(b) waiver. Non-Medicaid clients may continue to receive services within available regional support network resources. (General Fund-State)

5. Criminal Incompetency - The Department has not implemented funding provided solely for the implementation of Chapter 289, Laws of 2013 (E2SHB 1114). The funding level provided for this is reduced. (General Fund-State, General Fund-Federal)

6. Office of Forensic Mental Health - Additional funding is provided under Engrossed Second Substitute Senate Bill 5177 to staff an Office of Forensic Mental Health. (General Fund-State)

7. Civil Admission Ward at WSH - Funding is provided for the continued operation of a 30-bed civil ward that was originally funded as part of the early action supplemental operating budget, Chapter 3, Laws of 2015 (SHB 1105). This increases the number of civil beds at Western State Hospital from 557 to 587.

8. Competency Evaluation Staff - The state hospitals have experienced delays in providing timely competency evaluation services to individuals in jails. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for 18.0 FTEs to provide competency evaluation services so that the facilities can meet the mandatory time limits established in the act.

9. Ongoing Lease Adjustments - Funding is provided for contractual lease rate adjustments and one-time tenant improvements.

10. Community Competency Evaluations - The state hospitals have experienced delays in providing timely competency evaluation services to individuals in jails. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for reimbursement of counties for competency evaluation services provided by local evaluators when state hospital evaluators are unable to meet the mandatory time limits established in the act.

11. L&I Settlement Agreement - Funding and FTEs are provided in order to backfill staffing on the wards at the state hospitals while staff complete additional annual training hours. Dept of Social and Health Services
Mental Health

13. IMD Waiver - DSHS received a waiver effective October 1, 2014 that allows federal funding to be used in lieu of state funding for certain community inpatient stays in Institutions for Mental Diseases (IMDs) that were previously ineligible for federal match. A portion of the state savings related to this waiver are reduced from Regional Support Network funding for non-Medicaid services. This reduction will be distributed to Regional Support Networks based on the same proportions that were added to Regional Support Network capitation ranges specific to the waiver that allowed for federal funds to be used in IMDs. (General Fund-State, General Fund-Federal)

14. ITA Judicial Services - Funding for ITA judicial costs associated with state hospital patients in Spokane and Pierce Counties is reduced to reflect actual expenditures. (General Fund-State)

15. Medicaid Rates - RSN Medicaid capitation rates for disabled adults, non-disabled adults, disabled children, and non-disabled children are reduced. 16. Detention Decision Review - E2SHB 1450 (detention decision review) establishes a process allowing an immediate family member, guardian, or conservator to petition the court for review of a designated mental health professional's decision not to seek a person's detention under the Involuntary Treatment Act. Funding is provided for increased involuntary treatment costs expected to result from implementation of the bill. (General Fund-State, General Fund-Federal)

17. Assisted Outpatient Treatment - Engrossed Second Substitute Senate Bill 5649 (mental health/involuntary outpatient) provides that persons meeting certain criteria may be committed by a court for involuntary outpatient mental health treatment on an assisted outpatient treatment order. Implementation of the bill is expected to increase community mental health outpatient costs and result in some reduction in community psychiatric inpatient costs. Funding is provided for the expected net increase in costs for the community mental health programs. (General Fund-State, General Fund-Federal)

18. Psych. Intensive Care Unit (PICU) - Funding is provided for a Psychiatric Intensive Care Unit (PICU) to serve assaultive patients at both Western State Hospital and Eastern State Hospital. The PICUs will house high acuity patients for short-term stays with a transition back to a standard ward after stabilization. These patients will receive specialized patient care and treatment. This provides ongoing funding for a step in the early action supplemental operating budget, Chapter 3, Laws of 2015 (SHB 1105).

19. Psychiatric Emergency Response Team - Funding is provided to expand the Psychiatric Emergency Response Team (PERT) at Western State Hospital (WSH), create an additional team for day and evening shifts to support the civil wards at WSH, and add a single team for day and evening shifts at Eastern State Hospital. 7. Basic Plus Waiver Transition - The Department of Social and Health Services Developmental Disabilities Administration (DSHS-DDA) currently provides employment and day support services to approximately 350 individuals using state-only funding. A majority of these individuals are eligible for Medicaid waiver services funded partially with state dollars and partially with federal dollars. This item transitions eligible state-only employment and day program clients to the Basic Plus waiver to capture allowable funding. This item also preserves a smaller state-only program for those individuals unable to meet waiver eligibility standards. (General Fund-State, General Fund-Federal)

8. Adult Family Homes Award/Agreement - Funding is provided for increases to the vendor rate for Adult Family Homes. Beginning July 1, 2015, the vendor rate is increased by 5 percent. 2. ProviderOne Subsystem Delay - Funding is reduced due to a one year delay in the go-live date for the provider compensation subsystem. (General Fund-State, General Fund-Federal)

3. Area Agencies on Aging - The Area Agencies on Aging provide ongoing case management services for clients receiving personal care and help them find providers for health insurance, transportation, and medical care. 4. Nursing Home Investigations - Funding is provided for additional staff needed to conduct licensing, inspections and an increase in provider practice complaint investigations in nursing homes. (General Fund-Private/Local, General Fund-Federal)

5. Specialized Equipment Distribution - Funding is provided for the distribution of specialized customer premises equipment (CPE) to low-income individuals who are hearing and sight impaired. These individuals need specialized CPE to effectively access telecommunications service, Internet access service, and advanced communications. (General Fund-Federal)

6. Building Access Control System - One-time funding is provided to ensure that all building access control systems are compatible with Windows 7 or higher. (General Fund-State, General Fund-Federal)

7. Due Process for Adult Family Homes - Funding is provided to implement Substitute Senate Bill 5877 (due process for adult family homes). (General Fund-State, General Fund-Federal)

8. Nursing Home Rates - During FY 2016, the nursing facility payment methodology from FY 2015 remains in place. Beginning July 1, 2016, a new methodology for calculating nursing facility rates is implemented. The new methodology consists of rate components for direct care, indirect care, capital, and quality. The only remaining rate add-on is the reimbursement of the safety net assessment paid on Medicaid beds. Direct care is a flat rate at the industry median adjusted for resident acuity. After the transition to the new payment methodology, providers with costs below the industry median will have sufficient funding to increase staffing ratios or wages for employees. The direct care component will continue to be subject to the settlement process. Therefore, if providers do not increase staffing ratios or increase wages for employees, then funding for direct care will be returned to the state through the settlement process. (General Fund-State, Skilled Nursing Facility Net Trust Fund-State, General Fund-Federal)

9. Adult Family Homes Award/Agreement - Funding is provided for increases to the vendor rate for Adult Family Homes. Beginning July 1, 2015, the vendor rate is increased by 5 percent. Funding for dual eligibles ends September 31, 2015. Funding is provided to continue providing these services for dual eligibles until December 31, 2015. (General Fund-State, General Fund-Federal)

2015-17 Omnibus Operating Budget
Dept of Social and Health Services
Economic Services Administration

Comments:

1. Family Child Care Providers - Funding is provided for the collective bargaining agreement (CBA) with family home child care providers which will increase base payment rates by 2 percent July 1, 2016, and increase the non-standard hours bonus to \$75 with a cap. Funding provided to the Economic Services Administration covers payment increases for the Working Connections Child Care program. This also includes funding for health benefits for child care providers covered by the CBA. (General Fund-State)

2. Child Care Center Providers - Funding is provided in FY 2017 for a 2 percent base rate increase for center-based child care providers. (General Fund-State)

3. Behavioral Intervention Grants - One-time federal expenditure authority is increased to allow the agency to draw down a federal grant award to complete a demonstration and evaluation project. The pilot project uses behavioral economics focusing on engagement, intervention, enforcement and evaluation. (General Fund-Federal)

4. Medicaid Cost Allocation Changes - As a result of the medical eligibility change, DSHS receives less Medicaid funds to support its administrative costs. Clients currently access Modified Adjusted Gross Income (MAGI) Medicaid through the Health Benefit Exchange. Prior to the Affordable Care Act (ACA), clients accessed medical benefits, in addition to food and cash benefits, through the Department of Social and Health Services (DSHS). By October 2015, DSHS staff will assist clients at Community Service Offices (CSOs), or clients who call DSHS for services, in accessing medical coverage through the Healthplanfinder. This will allow for increased federal participation that will cover a portion of DSHS administrative costs previously covered by Medicaid funds. The remainder of the shortfall will result in the reduction of 42 FTE. (General Fund-Federal)

5. Data Center & Mainframe Costs - Funding is provided for ongoing costs related to the State Data Center and lease of a new mainframe used in the State Data Center. (General Fund-State, General Fund-Federal)

6. FTE Technical Correction - An increase is made in FTE authority to reflect current funding within Economic Services Administration for FTEs. An FTE reduction in the 2012 supplemental budget reduced ESA FTE authority by 267 FTEs per year. However, many of the vacant FTEs at that time were associated with temporary reduction in staffing rather than ongoing savings, therefore FTE authority is restored.

7. Building Access Control System - Funding is provided to update building access controls at DSHS locations. (General Fund-State, General Fund-Federal)

8. Expenditure Authority Adjustment - Expenditure authority is reduced for Diversion Cash Assistance (\$2.7 million per year) and for incapacity exams (\$1.1 million per year) to reflect projected under-expenditures within the programs. . (General Fund-State)

9. One-Time Relocation - One-time funding is provided for relocation expenses for statewide office expansions and consolidations. (General Fund-State, General Fund-Federal)

10. Ongoing Lease Adjustments - Funding is adjusted to reflect changes in lease costs within Economic Services Administration. (General Fund-State, General Fund-Federal)

11. SNAP Federal Grant - Federal authority is provided for a three-year federal Supplemental Nutrition Assistance Program (SNAP) grant that focuses on assisting SNAP recipients return to work. (General Fund-Federal)

12. TANF Grant - Funding is provided for a TANF grant increase of 9 percent beginning in fiscal year 2016.

1. Staff - Secure Community Transition - Funding is provided for five staff at the secure community transition facilities (SCTF) to support the increased number of residents being approved for community transition. Funding is provided for one WMS manager and four Rehabilitation Counselors. Chapter 71.09 RCW requires that all SCTF residents must have a trained staff escort or court-approved chaperone with them at all times.

2. Forensic Psychologists - The Department of Social and Health Services is required to produce annual reviews of sexually violent predators in a timely manner, as directed by Chapter 71.09 RCW. Without timely annual reviews, there is a potential risk of residents being released, because they cannot be legally placed at the Special Commitment Center (SCC). The SCC is currently incurring costs for reviews completed by contracted psychologists, and these costs range from \$3,500-\$4,500 per review. Funding is provided for additional contracted capacity to prevent a backlog of annual reviews.

3. Community Placement Staff - This item eliminates two community placement staff positions responsible for placement services and connecting the Special Commitment Center residents to community resources. (General Fund-State)

4. SCC Administrative Services - Savings related to cost containment and efficiencies for administrative functions in the Special Commitment Center are achieved primarily through the elimination of two administrative support staff.

5. Enhanced Sexual Predator Reviews - Funding is provided to implement House Bill 1059 (sexually violent predators). The Department of Social and Health Services will conduct additional annual reviews of residents in the Special Commitment Center. The Attorney General anticipates lower expenditures for post-commitment litigation.

6. SCC Health Services - Funding is reduced based on changing access to health services for residents during time after regular business hours from a 24/7 access model beginning January 1, 2016.

7. Medicaid Match Savings - There has been a reduction in the cost of health care expenses for residents of the Special Commitment Center, Secure Community Transition Facilities, and less restrictive alternative placements. These savings were achieved through increased efforts to maximize eligibility and enrollment in efficient health care payment systems, such as Medicaid, Medicare, Veterans Health, and Affordable Care Act provisions.

8. Meal Cost Efficiencies - Funding is reduced to assume a 20% efficiency in cost for meals by using more efficient ways to provide meals to its residents. The Department shall implement reductions beginning January 1, 2016.

9. State Public Employee Benefits Rate - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Comments:

1. Local Effort Assistance - The calculated local effort assistance cost depends on several variables including variables that affect the school districts' levy base. Policies that increase the cost of the state's program of basic education are assumed to increase the levy base. Additionally, the per pupil inflator (PPI) is adjusted so that the school districts will be permitted to collect, in aggregate, the same amount of local maintenance and operation levies in calendar year 2016 as they are currently collecting in calendar year 2015. The PPI is set at a rate of 4.27 percent for calendar year 2016 and is reduced to 1.09 percent for calendar year 2017.

2. Staff Mix - The 2015-17 budget funds 5,000 additional certificated staff with the expansion of state-funded full-day kindergarten and reduced class sizes in grades kindergarten through three. The 2015-17 budget assumes at least 30 percent will be new teachers. Staff mix, the state's term for average years of experience and educational credits, is reduced to reflect these new hires in the K-12 system.

3. CTS Rate Adjustment - Funding is reduced in agency budgets to reflect adjustments to various rates that the Consolidated Technology Services charges agencies.

4. Archives/Records Management - Funding is adjusted in agencies' budgets to reflect adjustments to rates related to archives and records management through the Secretary of State's Office.

5. Audit Services - Agency budgets are adjusted to update each agency's allocated share of charges.

6. Legal Services - Agency budgets are adjusted to update each agency's allocated share of charges.

7. Office of Chief Information Officer - Agency budgets are adjusted to update each agency's allocated share of charges and to reflect increased billing levels for software subscriptions and office relocation.

8. Administrative Hearings - Agency budgets are adjusted to update each agency's allocated share of charges.

9. CTS Central Services - Agency budgets are adjusted to update each agency's allocated share of charges from Consolidated Technology Services (CTS) to reflect an increase in business continuity/disaster recovery costs.

10. DES Central Services - Agency budgets are adjusted to update each agency's allocated share of charges and to align with anticipated billing levels from the Department of Enterprise Services (DES) in the 2015-17 biennium, including changes to the enterprise systems fee, personnel services, and small agency financial services.

11. Core Financial Systems Replacement - Agency budgets are adjusted to align with anticipated billings from the Office of Financial Management in the 2015-17 biennium for core financial systems replacement planning through the One Washington project.

2015-17 Omnibus Operating Budget Public Schools

12. Fleet Program Rate Reduction - Agency budgets are adjusted to reflect reduced costs for the Department of Enterprise Services' fleet program.

13. Time, Leave and Attendance System - The agency's budget is adjusted to reflect each agency's allocated share of debt service in the 2015-17 biennium for the certificate of participation issued for the Time, Leave and Attendance system.

14. Self-Insurance Liability Premium - Agency budgets are adjusted to reflect updated premium rates and a reduction in billings for the 2015-17 biennium.

15. Non-Violence Training - Increased funding support is provided for school districts and schools to work with the Institute for Community Leadership to implement non-violence curriculum, training and workshops.

16. Reduce Early Elementary Class Size - Chapter 236, Laws of 2010 (SHB 2776) established new funding formulas for basic education programs, requiring class sizes of 17 students for grades Kindergarten through three (K-3) by the 2017-18 school year. The 2015-17 budget reduces class size in a manner which follows the cohort of students who have already received the benefit of state-funded class size reduction, with first priority to those elementary schools with the highest percentage of students eligible for the federal Free and Reduced-Price Lunch program. Funding is provided to fully implement a class size of 17 for K-1 students in high poverty schools in the 2016-17 school year. Allocations for K-3 class sizes will be based on the school district's documented actual average class size.

17. Expand Full-Day Kindergarten - Chapter 236, Laws of 2010 (SHB 2776) requires statewide basic education funding of all-day Kindergarten by the 2017-18 school year. Allocations for statewide voluntary all-day Kindergarten programs are expanded, increasing from 43.75 percent of Kindergarten enrollment in the 2014-15 school year to 71.88 percent in the 2015-16 school year. All-day Kindergarten is fully implemented at 100 percent of Kindergarten enrollment in the 2016-17 school year.

18. School Turnaround Programs - Funding is sufficient to provide grants to school districts identified as persistently lowest achieving and having been listed by the Office of the Superintendent of Public Instruction (OSPI) as a Required Action District (RAD). Funds are also provided for staffing at OSPI for the implementation and continued administration of the program.

19. Project-Based Math and Science - Funding is provided for the Office of the Superintendent of Public Instruction to contract with a non-profit organization to integrate English language arts, math and science standards with outdoor field studies and project-based and work-based learning opportunities aligned with the environmental, natural resource and agricultural sectors.

20. Kindergarten Readiness WaKIDS - Funding is provided to continue the statewide administration of the Washington Kindergarten Inventory and Developing Skills (WaKIDS) and for one-time implementation and training grants for schools implementing the inventory for the first time. This step assumes the expansion of state-funded full-day kindergarten to 71.88 percent in the 2015-16 school year and fully-implemented in the 2016-17 school year.

21. Institutional Education MSOC - The funding rate for materials, supplies, and operating costs (MSOC) for institutional education programs is increased for curriculum and textbooks, technology, professional development, and 50 percent of other supplies and library materials. The remaining formula components are not increased, as facility operational costs for institutional programs are funded through the Department of Social and Health Services (DSHS) rather than the school districts. This step aligns institutional MSOC with the rates provided to general education students, with the exception of formula costs provided through DSHS.

22. Building Bridges Grant Program - Initiative 502, passed by voters in 2012, authorizes the regulation, sale, and taxation of marijuana for adults over the age of 21. Funding is provided for the dropout prevention and reengagement program to provide grants to Building Bridges programs as authorized by the initiative.

23. Initiative 1351 Class Size - Initiative 1351 (I-1351) amended the state's funding requirements for class size and staffing formulas, with a phase-in schedule estimated at \$2 billion for the 2015-17 biennium and full implementation effective September 1, 2018. The increased funding necessary to support I-1351 (\$2 billion) is reflected at maintenance level. The legislature has the authority to set the program of basic education and intends to continue making changes to the program in those areas where emerging research and evidence demonstrate that better and more efficient strategies are available to assist student success.

24. Special Education Ombuds - The 2014 Supplemental Operating Budget transferred funding from the Office of the Superintendent of Public Instruction (OSPI) to the Office of the Education Ombuds (OEO). This transfer was vetoed by the Governor. This funding provided restores the lost funding resulting from the vetoed budget section.

2015-17 Omnibus Operating Budget Public Schools

25. Social Emotional Learning - One-time funding is provided for the Superintendent of Public Instruction to convene a workgroup to make recommendations on comprehensive benchmarks for developmentally appropriate interpersonal and decision-making knowledge and skills of social and emotional learning for kindergarten through high school. The workgroup is directed to submit its recommendations to the Legislature's education committees and to the Office of the Governor by October 1, 2016.

26. Dual Language - One-time funding is provided for the implementation of a pilot program that: creates a dual language program; provides technical assistance and support of the expansion and implementation of dual language programs in school districts; and creates a dual language grant program. Funding in the amount of \$250,000 per year is provided for grants.

27. Computer Science Education - Funding is provided for the implementation of computer science education. The Superintendent of Public Instruction and the Professional Educators Standards Board (PESB) are directed to adopt computer science learning standards, and the PESB is directed to develop a K-12 computer science endorsement, pursuant to Chapter 3, Laws of 2015 1st special session (SHB 1813).

28. Urban School Turnaround - One-time funding is provided for the Urban School Turnaround Initiative, providing grants to each of the two schools that received grants under the initiative

29. Computer Science Grants - Funding is provided for a computer science and education grant program to support three purposes: train and credential teachers in computer sciences; provide and upgrade technology needed to learn computer science; and for computer science frontiers grants to introduce students to and engage them in computer science. The Office of the Superintendent of Public Instruction is directed to use the computer science learning standards adopted pursuant to Chapter 3, Laws of 2015 1st sp. sess. (comp. science ed.) in implementing the grant.

30. College Success - Washington Achievers Scholars supports community involvement officers in the recruitment, training, and matching of community volunteer mentors with students selected as achievers scholars, providing mentorship to low income high school juniors and seniors through their freshman year of college. The College Bound Scholarship program provides annual college tuition and a book allowance for low income Washington students. Funding is provided to expand the Washington Achievers Scholars program to all of the school districts located within King and Pierce counties. Additionally, funding is provided to replace federal and private dollars that are no longer available to the College Bound Scholarship program.

31. Civil Liberties Education - Funding is provided for the Kip Tokuda memorial Washington civil liberties public education program. The purpose of the program is to fund public educational activities and development of educational materials focused on the events surrounding the exclusion, forced removal, and internment of civilians and permanent resident aliens of Japanese ancestry.

32. AP/IB Exam Fees - Funding for the state's subsidy of advanced placement exam fees, international baccalaureate class fees and international baccalaureate exam fees is reduced to align with the actual expected expenditures for the program.

37. Transportation Funding Adjustment - During FY 2014 funding was provided for a supplemental transportation funding adjustment to assist efficient school districts that had exceptional circumstances, such as geographic anomalies not accounted for in the expected cost model, in the transition to the new, fully funded, expected cost pupil transportation funding model. This supplemental funding adjustment is eliminated.

38. Teacher Mentoring - Funding is provided to expand the number of teachers that may participate in the Beginning Educator Support Team (BEST) program at OSPI. BEST provides grants to school districts to provide an enhanced level of support and professional development for new teachers.

2015-17 Omnibus Operating Budget Public Schools

39. Local Deductible Revenue to Schools - Under current law, timber revenues to school districts from most federal lands are a local deductible revenue and are used to offset the state's general apportionment allocations. Congress reauthorized the Secure Rural Schools payment for two years. Pursuant to the budget policy, on a one-time basis for the 2015-17 biennium, school districts will be allowed to retain the local deductible revenues.

40. AIM Community Grants - Funding is provided for a pilot program for academic, innovation, and mentoring in five communities statewide. The grants will fund expanded learning opportunity grants to community-based organizations. The purpose of the program is to enable eligible neighborhood youth development entities to provide out-of-school programs for youth ages six to eighteen years of age that include educational services, mentoring and linkages to positive, pro-social leisure, and recreational activities. The programs must be designed for mentoring and academic enrichment which include at least two of the following three activity areas: (a) science, technology, engineering, and math (STEM); (b) homework support and high-yield learning opportunities; and (c) career exploration.

41. Math & Science Prof. Development - Professional development and coaching is provided for state-funded math and science high school teachers by the science and mathematics coordinators at the educational service districts for the 2015-16 school year. 45. 46. State Public Employee Benefits Rate - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March, 2015, and assuming that secular inflation meets or exceeds average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, various other accounts)

Based on claims data from the quarter ending in March, 2015, and assuming that secular inflation meets or exceeds average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, various other accounts)

9. General Wage Incr-State Employees - Funding is provided for wage increases for state employees who are not represented by a union or who are covered by a bargaining agreement that is not subject to financial feasibility determination. It is sufficient for a general wage increase of 3 percent, effective July 1, 2015; a general wage increase of 1.8 percent for employees who earn \$2,500 per month or more, effective July 1, 2016; and a general wage increase of 1 percent plus a \$20 per month increase for employees who earn less than \$2,500 per month, effective July 1, 2016. This item includes general government workers. (General Fund-State, various other accounts)

8. Fleet Program Rate Reduction - Agency budgets are adjusted to reflect reduced costs for the Department of Enterprise Services' fleet program.

9. Time, Leave and Attendance System - The agency's budget is adjusted to reflect each agency's allocated share of debt service in the 2015-17 biennium for the certificate of participation issued for the Time, Leave and Attendance system.

10. Self-Insurance Liability Premium - Agency budgets are adjusted to reflect updated premium rates and a reduction in billings for the 2015-17 biennium.

11. Red. Lkg. Tank Cleanup Expenditures - State Toxics Control Account-Private/Local expenditure authority is reduced on an ongoing basis to align with projected cost recovery revenue collected from potentially liable parties at cleanup sites initially funded with Ecology's federal grant for leaking underground storage tanks. (State Toxics Control Account-Private/Local)

12. Litter Control and Waste Reduction - Funding is reduced on a one-time basis to reflect lower revenue in the Waste Reduction, Recycling and Litter Control Account. (Waste Reduction, Recycling and Litter Control Account-State)

13. Completed Rulemaking Reduction - Funding and FTE staff are reduced on an ongoing basis to reflect completion of the Water Quality program's participation in a forest practices rulemaking process required by Section 203, Chapter 1, Laws of 2012, 1st sp.s. (2ESSB 6406), relating to natural resources management.

2015-17 Omnibus Operating Budget

Department of Ecology

14. Reduce Flood Plan Grants - The Flood Control Assistance Account program provides grants and technical assistance to local governments for flood damage reduction projects and flood hazard management plans. The Flood Control Assistance Account that funds this work receives its revenue from transfers from the state general fund. Continuing a temporary reduction that began during the 2009-11 biennium, funding is reduced on a one-time basis for competitive grants to local governments for flood hazard reduction projects. (Flood Control Assistance Account-State)

15. Elim. Watershed Planning Program - The Department of Ecology's Watershed Planning Technical and Financial Assistance Program provides assistance to local watershed groups to develop plans and address watershed issues. Over 30 watersheds have adopted plans since the program's inception in 1997. State general funds provided for this work are permanently eliminated. The four remaining planning units eligible for implementation grants during the 2015-17 biennium will not receive funding (located in the Wind, Chelan, Lower Lake Roosevelt and Lower Spokane watersheds), and implementation projects will no longer be funded through this program.

16. Shoreline Master Program - General Fund-State funding and FTE staff are permanently eliminated from the Shoreline Master program. This will result in less grant funding available to local governments responsible for updating their development regulations under the state Shoreline Management Act (Chapter 90.58 RCW), and fewer staff at the Department of Ecology to provide technical assistance to local governments planning.

17. Air Quality & Shorelands Fund Shift - General Fund-State expenditures for the Department of Ecology's Air Quality program and the Shorelands and Environmental Assistance program are shifted to the State Toxics Control Account. (General Fund-State, State Toxics Control Account-State)

18. Safe Transportation of Oil - Pursuant to Chapter 274, Laws of 2015 (ESHB 1449), a combination of one-time and ongoing funding and FTE staff are provided for 1) oil spill contingency planning by railroads transporting oil in bulk and 2) rulemaking and modification of technology systems to accommodate advance notice of oil transfer data from railroads and pipelines. (Oil Spill Prevention Account-State)

19. Oil Spill Risk Assessments - Vessel traffic risk assessments (VTRAs) measure changes in oil spill risk and help decision makers to ensure that prevention, preparedness and response measures are in place. Ongoing funding is provided to (1) conduct VTRAs in areas of the state where they presently do not exist (Grays Harbor, Columbia River and the outer coast) and to periodically update VTRAs in future years, beginning with the Puget Sound assessment completed in March 2014, and (2) develop and periodically update a rail traffic risk assessment model to analyze changes in the rail transportation system. (Oil Spill Prevention Account-State)

20. Red. Water Res. Exp. to Match Rev. - Expenditure authority is reduced on an ongoing basis to match expected revenues in the Basic Data Account and the Water Rights Processing Account. These accounts fund streamflow data collection and water rights processing activity in the Water Resources program. (Basic Data Account-Nonappropriated, Water Rights Processing Account-State)

21. Red. Woodstove Exp. to Balance Acct - Expenditure authority is reduced permanently in the Wood Stove Education and Enforcement Account to reflect lower revenues. (Wood Stove Education and Enforcement Account-State)

22. Expedited SEPA Permitting - Pursuant to Chapter 144, Laws of 2015 (SHB 1851), one-time funding is provided for rulemaking to exempt the repair or replacement of a city, town, or county bridge deemed structurally deficient from State Environmental Policy Act (SEPA) compliance.

23. Forage Fish Management/5166 - One-time FTE authority is provided for Washington Conservation Corps supervisors to implement Chapter 191, Laws of 2015 (SSB 5166).

24. Walla Walla Watershed Management - One time funding is provided for the Walla Walla Watershed Management Partnership to address local water management issues in the Walla Walla basin.

25. WA Conservation Corps Minimum Wage - The Department of Ecology's Washington Conservation Corps (WCC) employs young adult AmeriCorps members to work on a variety of natural resource and emergency projects, including habitat restoration, trail construction, and wildland fire response. Ongoing funding is provided to support a corpsmember minimum wage increase to \$9.47 per hour in 2015.

26. Oil Spill Response Equipment Grants - To better prepare local communities for rapid response to potential oil spills from rail incidents, ongoing funding and FTE staff are provided to strategically place oil spill response equipment caches where needed through an ongoing local government grant program. (State Toxics Control Account-State)

2015-17 Omnibus Operating Budget

Department of Ecology

27. Reduce Oil Spill Risk - The Department of Ecology received one-time funding in the 2014 supplemental budget for additional resources to (1) develop preparedness and response tools for mitigating oil spills to rivers and streams; and (2) analyze the changing risks associated with crude oil moved by rail and vessels. Ongoing funding and FTE staff are provided to complete and maintain the response tools along rail corridors and marine waterways, and retain staff expertise on spill risk assessment, mitigation, and rapid oil spill response. (Oil Spill Prevention Account-State)

28. Expanding Local Source Control - Ongoing funding and FTE staff are provided to add additional Local Source Coordinating capacity in the Columbia River Basin, provide support to new local businesses, and implement source tracing and watershed monitoring studies. (State Toxics Control Account-State, Local Toxics Control Account-State)

29. Implement Chemical Action Plans - Chemical Action Plans (CAPs) identify chemical sources and releases and recommend steps to reduce impacts or phase out chemical uses. Pursuant to Engrossed Second Substitute House Bill 1472 (Chemical Action Plans), Second Substitute Senate Bill No. 5056 (safer chemicals/action plans), Substitute Senate Bill No. 6131 (safer chemicals), or any of these, a combination of one-time and ongoing funding and FTE staff are provided to develop and implement CAPs, conduct environmental monitoring studies, require manufacturers to conduct alternatives assessments and then review those assessments, make determinations of whether safer alternatives exist, and write rules describing the process for obtaining chemical information from manufacturers and for ordering additional information when needed. (State Toxics Control Account-State)

30. Study Toxics Sources in Stormwater - A combination of one-time and ongoing funding and FTE staff are provided to carry out studies related to the sources of toxics in stormwater, including roofing materials and tires, as well as stormwater impacts on salmonids. This research is conducted by the Washington State University Stormwater Center in Puyallup. (State Toxics Control Account-State)

31. Lower Duwamish River Source Control - The U.S. Environmental Protection Agency announced a \$342 million Superfund cleanup of the Lower Duwamish Waterway (LDW) in late 2014. The Department of Ecology's role in this work is to control sources of pollution so cleanup can begin and protect the investment in sediment cleanup. Ongoing funding and FTE staff are provided to improve water quality permit implementation; strengthen strategic collaboration between water quality, cleanup, and toxics reduction efforts; and develop a watershed pollutant loading assessment modeling tool to help determine progress on cleanup and clean water goals. (Environmental Legacy Stewardship Account-State)

32. Regional Stormwater Monitoring Prgm - Ongoing funding and FTE staff are provided to administer a program of regional monitoring, effectiveness studies, and analysis of stormwater pollution reduction efforts paid for by local governments participating in the Regional Stormwater Monitoring Program (RSMP). This monitoring is required under the new general municipal stormwater National Pollution Discharge Elimination System Phase 1 and Phase 2 Western Washington permits. The western Washington permittees worked with the Department of Ecology to develop a regional program to perform the required monitoring, studies and analyses administered through the RSMP, rather than conducting the work individually. (General Fund-Private/Local)

33. Preventing Nonattainment - Ongoing funding and FTE staff are provided to conduct community-level air quality assessments and work closely with elected officials, citizens, local agencies, businesses and civic leaders in the state's highest-risk areas to help design preventive air pollution solutions. (Environmental Legacy Stewardship Account-State)

34. Hanford Tank Permit and Compliance - In March 2014, the Department of Ecology (Ecology) issued an administrative order to require the U.S. Department of Energy (USDOE) to remove waste from a leaking double shell tank. The USDOE is not meeting milestones set in a federal consent decree for tank waste treatment, resulting in increased compliance and permitting work for Ecology. In response to these tank waste problems and to address safe storage of cesium/strontium capsules, the USDOE has proposed three new facilities that will require permitting and oversight by Ecology. Ongoing funding and FTE staff are provided to carry out this federally-funded work so that radioactive waste is appropriately managed. Costs will be paid for by the USDOE through regulatory oversight fees. (Radioactive Mixed Waste Account-State)

35. Complying With Air Quality Lawsuits - Ongoing funding and FTE staff are provided to update state implementation plans and regulations to better align the state's regulatory framework with federal regulatory requirements. (Environmental Legacy Stewardship Account-State)

36. Spokane R. Innovative Collaboration - The Spokane River Regional Toxics Task Force's innovative collaborative partnership works toward achieving water quality standards for toxics, specifically polychlorinated biphenyls (PCBs) in the Spokane River. The Task Force received one-time funding from the Department of Ecology during the 2013-15 biennium to identify, implement, and measure the reduction of toxic chemical inputs to the river. One-time funding is provided to continue the work of the Task Force for two more years. (State Toxics Control Account-State)

2015-17 Omnibus Operating Budget

Department of Ecology

37. Meeting Air Operating Permit Needs - Industrial facilities that emit large amounts of air pollution are regulated by the Department of Ecology under the federally-mandated Air Operating Permit program. Under both federal and state law, the costs of the program must be fully supported with fees paid by these air pollution sources. Based on fee criteria and formulas specified in statute, Ecology intends to increase fees during the 2015-17 biennium to cover the cost of serving new sources entering the program, including writing permits, conducting inspections, and updating emission inventories. Ongoing funding and FTE staff are provided to carry out this work. (Air Operating Permit Account-State)

38. Biosolids Permitting - The Biosolids program provides oversight, permitting, and technical assistance for sewage treatment plants, facilities that manage wastewater from septic systems, and other facilities that generate, treat and use biosolids. Biosolids are a product of wastewater treatment and septic tanks, comprised primarily of organic material that can be used to condition soil and enhance plant growth, after meeting requirements under Ecology's biosolids management rule. Ongoing funding and FTE staff are provided to increase technical assistance, enforcement, and compliance inspections of permit applicants. (Biosolids Permit Account-State)

39. State Public Employee Benefits Rate - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March, 2015, and assuming that secular inflation meets or exceeds average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015.
